CORNSSIL

Biodegradable Compostable Dish Scrubber

- Material** 100% PLA yarn, square, 8 layers, 2 colors > 482
- Advantages** For more information on material advantages, please refer to the detailed page

Product

Square (1 layer)
30cm x 30cm, Large size can be used freely in various shapes, Quick Drying Surface

Rectangle (8 layers)
10cm x 15cm, 8 layers. The larger (30*40cm) fabric is folded into 8 layers and Ultrasonic welded to prevent it from shedding. The 8 layers make it thick enough to grip without a sponge, and it has excellent cleaning performance even when not folded.

Colors
Available in two colors: Yellow and Pink. They are labeled to distinguish them from traditional non-biodegradable products. The label is also made of biodegradable fabric.

PLA Yarn

SDY 35d, 50d, 75d, 150d, 300d, 500d, 1200d
DTY, Colored Filament
